

Stormwater Department Update

JANUARY 11, 2022

Progress

Received confirmation of DEO approval of the 25% match for HMGP Projects including 11th St, Pine Forest Estates, Bradley Circle, Dundee Ln, and Wyoming Ave; next step is signing all grant agreements and preparing RFQ's for design.

Ditch Digging contractor has dug approximately 21,000 LF of ditches, City vac-truck continuing to follow behind and clean culverts.

Signed Task Order with Dewberry Engineers to survey and analyze the drainage of the 1600 blocks of Alabama and Virginia Ave

Commission approved the new portion of the ULDC that requires designs meet 100-year storm events for new development.

Progress (cont.)

Purchased RC Mower to manage difficult to reach easements and stormwater retention ponds.

Received the grant agreement for the \$1 million legislative appropriation for stormwater improvements which will include dredging of the city's outfalls.

Numerous in-house culvert and inlet repairs.
