

Stormwater Department Update

OCTOBER 12, 2021

Work Update

- Met with Davis Lake Residents with FWC regarding drawdown and carp for grass removal.
- Working with consultant on devising the workplan to submit for Legislative Funding for stormwater.
- Signed Task Order with Dewberry Engineers to get design started for replacing the failing culvert under 19th St near the intersection of Montana Ave.
- Planning Department is working on getting the ordinances amended for stricter stormwater regulations for new developments which will require 100-year stormwater ponds in lieu of 25-year ponds.
- DOT is working on their crossings, they have diverted traffic and milled up road for 2 of the 3 crossings.
- Staff is continuously working on digging ditches and cleaning culverts.
- Working on agreement with Havenwood Apartments on an agreement to get new ditches built behind their property.
