

Stormwater Department Update

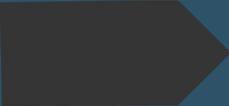

March 14, 2023

Stormwater Response Map

Preparedness Steps

1.) Ditch maintenance- contractor and city staff work on cleaning out ditches prior to the rainy season.

2.) Vac-Truck- staff utilizes our vac-truck to go through and open culverts and inlets ensuring that they are free of any obstructions.

3.) Mowing- staff works to stay on top of the mowing to ensure that the flow of stormwater is not restricted.

4.) Response to citizens- respond to any calls and/or complaints we get in a timely manner
